*The Key to Freedom
and Independence*

Welcome to the Cornwall Mobility Centre

Michael Grace, Centre Manager and Chair of the Forum of Mobility Centres

The largest most dynamic Mobility Centre with the biggest range of services within the UK Forum of Mobility Centres, to which the Centre is fully Accredited. We believe it was the first purpose built mobility centre of it's type in Europe. The services offered encompass assessments, information and advice for Paediatric mobility and transportation, daily living equipment, driving and wheelchairs, all of which are carried out by Professional staff. Our Engineering services fit adaptations to vehicles in line with recommendations from assessments, and repair all types of mobility/rehab equipment.

Welcome to the Driving Department

The Driving Department provides a range of services to assist clients to either learn to drive, resume driving or continue driving. Whether you require lessons, need an assessment, would like to test the latest adaptations or require advice /information our Assessment Team can provide assistance.

Welcome to access assessments

An access assessment is a way of finding out which transfer method, type of vehicle or equipment is required to enable a person to access and travel safely in a vehicle.

The Cornwall Mobility Centre has a demonstration wheelchair accessible vehicle. We are happy to demonstrate our vehicle, a Ford Tourneo "Connect". We can also provide a full risk assessment and report for you, which will detail your own individual circumstances and requirements. We also have access to a "drive from wheelchair" vehicle. Please contact the Driving Department for further information.

Welcome to Vehicle Adaptations

We encourage clients who require their vehicle to be adapted to have an assessment. There is a wide range of adaptations available from various manufacturers and we prefer to assess the most suitable type for clients' individual requirements. If you have previously had an assessment with the Centre and simply wish to transfer any existing adaptations to an alternative vehicle, there is usually no requirement to have an adaptations assessment, provided your personal circumstances have not changed. The Centre has a range of vehicles available, fitted with various adaptations for demonstration and instruction purposes, and has a team of Adaptations Technicians available who will be able to fit the equipment you require.

Welcome to the Wheelchairs & Scooters department

The Wheelchairs & Scooters Sales Department provides a range of mobility equipment to assist with independent mobility both indoors and outdoors. We are able to assess the type of equipment most suitable for a client's requirements, including whether any customising or specialist adaptations are necessary in order to provide comfort, support, safety and independence.

Welcome to the Service / Repair workshop

The Wheelchair Workshop Team are able to service or repair any item of mobility equipment:

- Manual, Power Wheelchairs and Scooters
- Riser Recliner Chairs
- Bath lifts
- Wheeled Walkers
- Hoists

Home servicing, repairs and breakdown assistance is also available.

Welcome to the Independent Living Centre

The Independent Living Centre (ILC) has a range of equipment and products for you and your home for anyone who needs a little help to stay active and care for themselves. Our ILC Team are uniquely qualified (some have extensive experience of work-

ing in Occupational Therapy Departments) to help you become as independent as possible. They will assess your needs / difficulties and recommend equipment most suitable for your requirements. You will receive a demonstration of equipment and be able to try it out for yourself.

Welcome to the Paediatric Department

Our Paediatric Department specialises in wheelchairs, buggies, car seats and harnesses for children with special needs. We also have a range of other equipment from cutlery to bath lifts to assist you and your child. Our Assessment Team will help you with advice and information about the products available and look at your individual requirements.
